# *Why BYOD?*

- Financial
- Sustainability
- Familiarity – *it just works*
- Work force satisfaction
- Performance
- Virtual teams
- Increased business resilience
- Reduced asset management
- Security concerns are reducing

# *Trends in BYOD*

- Employment benefit – attracting a new generation of work force
- Move away from using landlines – dual SIM
- Ability to create - not just view and consume
- Fully provisioned and managed
- Corporately Owned, Personally Enabled (COPE)

# *Do you already BYOD?*

- Device sophistication
- Convenience and familiarity
- Right device at the right time
- Mobile and flexible working
- *Shadow IT*

# *Risks*

- Allowing 'unmanaged' devices onto the corporate network
- Allowing 'unmanaged' devices to access corporate resources
- Data leakage – copy and paste
- Personal devices being lost or stolen

# *Usage policy*

- Acceptable use
  - Passwords
  - Encryption
  - Web sites
  - Social media
- Security measures
  - Employee may need to accept some restrictions
- Support
  - How much support do you offer?
- Mobile Device Management (MDM)...at a cost

# *Practical considerations*

- Define the services that will be made available
  - Email, web, files, applications and telephone
- Printing
- Joining and leaving processes
- Telephone numbers are “personal”
- Monitoring and reporting
- Mobile device management
  - Management time and effort
  - Software costs
- Temporary replacement device provision
